

# Griffith NHer Leader Activator

**Empowering and Building Your Inner Leader**

## A Leadership Session for Women Engineering and Construction Management Students

The “**Griffith NHer Leader Activator**” is a virtual leadership session to activate and build the inner leadership potential within women Engineering and Construction Management students. Participating students will experience the following:

- Career and leadership lessons from a panel of impressive women working in the Engineering and Construction fields.
- Inspirational tips on how to develop their own leadership potential for success in school and career.
- Advice to better position themselves for internships and full-time jobs.
- Great resources for women aspiring to careers in engineering and construction.
