

Come work for the Office of Clean Energy Demonstrations!

We seek candidates from across the country who are interested in building a diverse and high-performing team charged with scaling the emerging technologies needed to tackle our nation's most pressing climate challenges. The Office of Clean Energy Demonstrations (OCED) is managing more than \$25 billion in funding to deliver clean energy demonstration projects at scale in partnership with the private sector to accelerate deployment, market adoption, and the equitable transition to a decarbonized system. OCED is a multi-technology office with demonstrations that include clean hydrogen, carbon management, advanced nuclear reactors, long-duration energy storage, industrial decarbonization, as well as demonstration projects in rural or remote areas and on current and former mine land. Current openings include:

Portfolio Strategy

- Strategic Planning & Analysis
- Program Development & Evaluation
