“The SMART Scholarship program has allowed me to continue serving the military community. As an engineer working with the DoD, I better understand the soldier’s needs on the battlefield. This allows me the privilege to develop and advance the DoD’s radio frequency and millimeter wave biosensor technology.”

– Khaldoon Ishmael, Scholar of the Year Award Recipient

The Science, Mathematics, and Research for Transformation (SMART) Program provides STEM students with the tools needed to pursue higher education and begin a rewarding career with the Department of Defense (DoD). SMART is the largest education to workforce program offered by DoD STEM.
