

Are you exploring career opportunities?

Have you considered combining your interest in technology with the law?

We\* would love to introduce you to the possibility of being an Intellectual Property professional!

IP law combines learning about cutting edge technology, building and leveraging strong communication skills and advocating for your clients.

\*ADAPT is a group composed of IP professionals from our members, which include Fortune 10 & 500 companies, startups, law firms, patent pools and patent service providers. We are offering students the opportunity to connect with us to learn about what we do, the paths we took to our careers and support if you are interested in following our lead.
