

Explore Global Careers with Lam Research Taiwan!

Are you an engineering or science student interested in global opportunities? Kickstart your global career with our Field team and be a part of a **one-year immersive training program in Taiwan**. You'll gain hands-on experience, mentorship, and cross-cultural exposure before transitioning to a full-time role in Arizona, where you'll support one of our key customers, TSMC, at the forefront of semiconductor innovation.

RSVP to an info session by scanning the QR code below.

University of Southern California
